BASS DISC Bluetooth® Speaker including MicroSD Slot

Art.: 5687042 EAN 4260193281426

RAIKKO® BASS DISC – THE IDEAL OUTDOOR COMPANION

Waterproof, dust-resistant and robust! At first glance the BASS Disc Bluetooth® Speaker reminds us of the old Discman from the 80's and 90's. The shape was perfect for on the go, already then. But not only the shape, also the Ipx5 standard is ideal for use outside, because it keeps the device waterproof (splash-proof), dust-resistant and robust. The BASS Disc does not get thrown off track easily. In addition to it's great design and robustness, the speaker also offers powerful sound with a decent bass. Music can be played via Bluetooth®, cable and also via a Micro SD card.

HIGHLIGHTS

- Optional wireless operation via Bluetooth®, MicroSD card or Line IN (3.5 mm jack)
- 3 Watts music output
- Casing according to Ipx5 standard
- 38 mm diaphragm
- Internal battery with 4–8 hour runtime (depending on music and operating mode)
- Built-in speakerphone function
- Auto standby prolongs battery life
- Very easy to operate
- Easy to recharge via Micro-USB

INCLUDES

RAIKKO® BASS Disc Bluetooth® Speaker, USB charging cable, Line IN cable, carabiner, user manual.

Delivered in user-friendly and environmentally friendly packaging.
